ClassInTheBox + Microphone

If you are not interested in interacting with the webcam, this box and microphone pack is the best option.

citb Microphone

If you already have the complete ClassInTheBox kit you can purchase additional microphones. Several people, each with their own personal microphone, can use the same citb device. They only have to link their microphone manually, each time they are going to use it.

citb Tripod

With this small, sturdy and versatile tripod, you can adapt to any situation. Its flexible legs can be attached to difficult locations, and its ball head will help you get the right angle.

- Small size for easy transport.
- Rugged and sturdy.
- Ball head with 1/4" hot shoe.
- Bubble level to regulate horizontality.
- Flexible legs for difficult positioning.
- Height range: 290 - 310 mm.
- Weight: 420 gr.

citb 4k Webcam

If you need a camera with autofocus and very high image quality, the latest generation citb 4k webcam is the best choice.

- 4k resolution: 3840 x 2160 px.
- Lens 6G 8M f 3.6 aperture.
- HD CMOS sensor.
- Autofocus from 50mm to infinity.
- Maximum 30 frames / second.
- High Speed Control.
- Flicker control: 50 HZ.
- Recording format: AVI

citb Extension

In order to take full advantage of ClassInTheBox we have developed the CITB Extension for Google Chrome and Firefox browsers. The conjunction of hardware and software expands the functionality of ClassInTheBox exponentially. The **Use Modes** that incorporated into the use of CITB take video conferencing to the next level.

Camera change

Show Mode

Classroom Mode

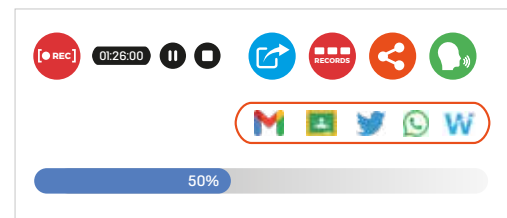

Duplo Mode

And as if all this were not enough, all the Usage Modes can be activated by **Voice Commands**. Although you can still activate them by clicking on their corresponding icons, you no longer need to be in front of the computer. With remote voice activation voice activation, **the freedom of movement is total**.

citb [REC]

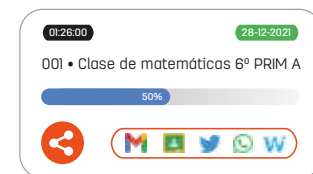

Record and share all your video conferences, with high image and sound quality. Facilitate offline access to the recorded content to all your contacts so that they can consult it as often as they need.

- Start recording.
- Duration of the recorded session.
- Momentary pause and end of the recording.
- Save the video clip.
- Gallery of recorded videos.
- Share recorded clip with others.
- Activate voice commands.
- Progress bar of the recording process.

citb RECORDS

Manage your recordings at any time by accessing the media library.
